RE: COVID-19

To our valued employees, customers, suppliers, and business partners,

Abbott Rubber Company continues to consider the safety and well-being of our employees and their families, our customers, suppliers, partners and community to be of paramount importance.

Under guidance and direction of government and state mandates and directives, we have modified production processes, and made necessary adjustments to ensure the safety and well-being of our staff to the best of our abilities.

We are a producer and supplier of products to many essential businesses such as medical, firefighting, hardware, water and wastewater, plumbing, food and beverage, laundry, and others. Under executive orders of the state of Illinois, we will remain open and operational.

We will make every effort to minimize any possible processing and shipping delays due to the current crisis.

In this fluid situation we are committed to a daily assessment of the current situation and will amend and modify our plan as necessary. Like all of us, we hope for a swift recovery and are committed to helping make that happen in any way possible.

We thank you for your understanding, we wish you and your families well, and hope you stay safe and healthy.

Abbott Rubber Company
